ABOUT ME

I am a Software Engineer with over 15 years of experience in web development, specializing in front-end technologies. From early CSS techniques to modern frameworks, I have continuously adapted to advancements in the field.

With over a decade of expertise in Vue.js and React, I have delivered numerous web and mobile applications using frameworks like Next.js, Nuxt.js, and React Native. I enjoy tackling challenges, staying updated with new technologies, and mentoring others.

My core strengths lie in JavaScript and its frameworks, complemented by back-end knowledge of Node.js and Bun.js, enabling me to manage projects from concept to completion.

WORK EXPERIENCE

Ctrl+Tech   2018 - PRESENT
Lead Front-End Developer

- I have developed many websites and platforms, specializing in cutting-edge technologies like Next.js, Nuxt.js, and various advanced libraries.
- I have built highly professional and modern applications for startups in Iran and internationally, many of which remain actively online today. This role has allowed me to tackle diverse challenges and contribute to innovative, scalable, and impactful digital solutions.

Kadro.co (Remote)   2017 - 2020
Web Developer

- developed the company's website and online photography platform for this company part-time.

Azma Group   2017 - 2018
Nuxt/VUE Developer and Designer

- built a platform for live videos and online streaming using NuxtJs, which was connected via an RESTful Api.
- Utilized HTML, CSS, and JavaScript to create visually appealing and responsive web pages that met client requirements.

Citynet   2017 - 2018
Graphics Designer & Web and Mobile Developer

- Developed innovative designs for variety of clients in graphic design industry.
- Created artwork for product packaging and promotional materials.
- Edited and enhanced existing artwork and graphics.
- Put together videos for social media, advertising, and informational purposes.
- Developed custom themes and plugins for content-driven tourism websites. Transitioned into professional web and mobile development, specializing in Vue.js for web apps and React Native for mobile solutions.
